TECH FOCUS

Tech Focus is a review of the current developments within a particular technology sector, along with a look at the latest relevant commercial products. While this is, at its core, an editorial offering, there are marketing opportunities to associate yourself with the product.

Each Tech Focus will be published in the magazine, but it will also be available online, via our social media channels and will be distributed as a standalone newsletter to a defined, product-specific email audience.

This means only the people who have expressed an interest in the technology will receive the email.
